Dear [Name],

At the UF College of Veterinary Medicine, your gift can make a difference by saving lives, changing lives, and finding cures.

When choosing a gift, we all want to spend our money wisely on what is most needed and the best value. We spend time researching products, deciding how much we can afford, and trying to get the most for our money. The enclosed Annual Gift Catalog allows you to do just that with your gift to the UF College of Veterinary Medicine.

The gift catalog highlights special areas of interest and need. For instance:

- $50 to Shelter Medicine provides a spay-neuter surgery for a kitten or cat.
- $50 to Wildlife and Zoo Med Services provides food for injured birds or tortoises.
- $100 to Veterinary Forensics provides evidence-processing supplies for law enforcement or investigators.
- $250 to Veterinary Emergency Treatment Services provides a hands-on student training lab.
- $250 to Clinical Skills Simulation Lab provides spay and suture models.
- $500 to Shelter Medicine provides pre-adoption veterinary care for a dog and her puppies.

Our college continues to face challenges to educate students and provide health care to animals, but our dedication will never diminish. Your gift can help the college meet its goals of training students and advancing animal, human, and environmental health. When you give back, you help purchase a gift that really does make a difference.

Best wishes and Go Gators!

Sincerely,

Jo Ann Winn
Alumni Affairs Coordinator
